## Start to use

ⓐ Power on
    Plug power adapter into outlet, plug the round side of adapter to Roome smart light.

ⓑ Place the lamp wisely
    Turn the front side of the smart light to the main active region in order to have best auto control effect.

ⓐ App control
    Please scan the QR code below or search for "Roome" in App store to download Roome app.

Scan to download app

Available on the App Store

Download for Android
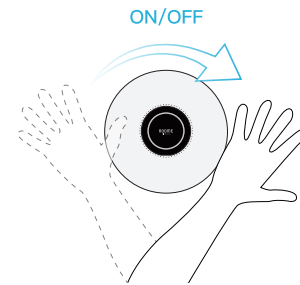

* Compatible with iOS 7.0
  & Android 4.3 and above

ⓑ Connect the Bluetooth and play music
    – Bluetooth Pairing: Enable the Bluetooth on your smartphone and search the Bluetooth devices. To connect, select the device named "Roome" in the Bluetooth devices list.
    – Play Music: You can play any music in your phone after Bluetooth connected.
    – Playback Controls: Please control the playback functions via your smartphone.
    – Bluetooth Disconnection: Just turn off the Bluetooth function on your smartphone. If your smartphone is out of the Bluetooth range(8m–12m), the Bluetooth will disconnect automatically as well.
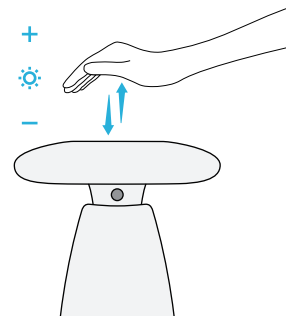

Bluetooth Music

ⓐ Gesture Control
    Turn on/off light: wave your hands above lamp.
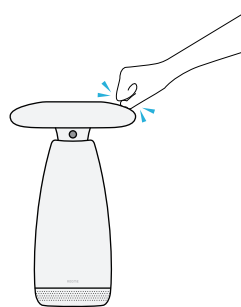

ON/OFF

Adjust brightness:
Move your hand up and down in the region 3 to 10 cm right above the lamp to adjust brightness. Hang stable for a second to confirm your adjustment. After one flicker, your adjustment has been recorded.

ⓐ Knocking Control
    Knocking the lamp can help you close wake–up–light alarm, close all lights, enter pair mode, enter WIFI setup, restore the lamp and so on.

Knock Once: Stop wake–up light when this functionality is on.

Knock Twice: Close all lights (need support from other devices connected in the same network)
After two flickers, all the Roome devices that share the same network with Roome smart light will be closed.

Knock Three Times: Enter pairing mode
After three flickers, you can start to connect other Roome device with smart light and start to interact each other. The linkage is stopped automatically after 3 mins or by waving hands.

Knock Five Times: Enter WIFI setup
After five flickers, you can connect smart lamp to WIFI network using App (see App guide for detail). The linkage is stopped automatically after 3 mins or by waving hands.

Knock Ten Times: Factory Reset
After ten flickers, Roome smart light starts to reset to factory default settings. There will be three flickers after successful reset.

Warning Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

· Reorient or relocate the receiving antenna.
· Increase the separation between the equipment and receiver.
· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
· Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To comply with FCC RF exposure compliance requirements, this grant is applicable to only mobile configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

ROOME™

Manufacturer: HOMI Tech Co., Ltd.
